CAREER AND TECHNICAL EDUCATION (CTE) WORKSHOP
WEDNESDAY, April 17, 2019 4:15 p.m. – 7:00 p.m.
Collette Education Resource Center – 35 Commerce Way, Dover

Attention: Career and Technical Education Teachers, Counselors, Principals, and CTE District Coordinators

The Delaware Advisory Council on Career and Technical Education (DACCTE) is pleased to host a statewide workshop in conjunction with the Delaware Department of Education (DDOE). This is an opportunity for you to learn valuable information and provide personal feedback on issues impacting CTE programs in your school.

The workshop will begin at **4:30 p.m.** (registration beginning at 4:15) and a buffet dinner will be served following the program. **Please note:** If you **ARE NOT STAYING** for dinner, email the DACCTE office at janet.nichols@daccte.k12.de.us so we can provide an accurate meal count.

Register through PDMS: Course #27988, Section #50732 by Friday, April 12.

WORKSHOP: Nature, Nurture, & Neurons: The Impact of Trauma and Toxic Stress on the Brain

Childhood trauma and toxic stress threaten healthy development and plant the seeds for physical and mental illness. **Join CTE educators** and the Department of Education's Teri Lawler for a spirited discussion to explore the science of early brain development—what promotes it, what derails it, and the consequences of each – and put action behind your compassion to change the trajectory for youth, families, and communities. Participants will play **The Brain Architecture Game** and observe up close how educators and community members can work together to build resilience and coping skills, lessen the impact of challenging life events at critical milestones, and improve outcomes for youth through healing-centered engagement and trauma-responsive interventions and supports that add value to every learning environment.

Cc: Superintendents
