97% of players would recommend CyberStart to a friend

92% of players surveyed would now consider a career in cybersecurity

Saahas, Arkansas

"Before CyberStart I had no idea how to use Linux, and I was vaguely familiar with forensics and encryption. The vast number of challenges in CyberStart America provided a great introduction to these concepts."

Maeve, Virginia

"CyberStart is what drew me into the field and I realized I had a passion and strength for problem solving. This program has been tremendous for me, and now that I am involved in it, I can't imagine not participating."
