Evaluation Cycle- Spring

School Year- 2023-2024

School Surveyed/Visited- Magnolia Middle School

School District- Caesar Rodney

Members of the Delaware Advisory Council on Career and Technical Education are given the responsibility, by State Law, to monitor and evaluate career and technical education programs in Delaware. The purpose of program monitoring is to bring about program improvement for our CTE students. During monitoring visits, a DACCTE staff and Council member are joined by a CTE Education Associate from DOE when possible. The team visits schools to gather information on career and technical education programs so that constructive program improvement recommendations can be formulated and communicated to those who implement the programs.

School monitoring visits typically take place between September and June on a two-year rotation of schools. DACCTE members, as advocates for career and technical education, approach each monitoring visit with an open mind. Our role is to provide an unbiased perspective to help educators. Specifically, Council members use a monitoring questionnaire provided by Council staff as an interview guide when talking with school personnel. After conducting all the interviews, DACCTE Staff analyze all questionnaires and information gathered during the visit. After analysis of all available data, recommendations for program improvement are formulated and communicated to the appropriate agencies, organizations, and individuals.

Schools that are new to the DACCTE educational visit process are receiving a transitional visit. The transitional visit consists of the following topics of discussion with school administration and CTE staff.

- Introduction of DACCTE staff
- History of DACCTE
- Mission of DACCTE

- Objective of DACCTE
- Program funding informational handout
- DACCTE Contact Information
- Data Collection Instrument (Survey)- Teachers are asked to please complete the survey to become familiar with the process and offer feedback to help develop program level specific data analysis.

Magnolia Middle School received a transitional visit this year. A transitional visit gives an opportunity for a school to become familiar with the processes of a future visit and build a collaborative relationship for the benefit of the CTE delivery system moving forward. Mr. Keen (Principal) and Mrs. Corbeil (Supervisor of Instruction) are very supportive of CTE programs. I was taken on a tour of the building and programs offered, which allowed me to meet various teachers, discuss CTE with them, and see the students engaged in their CTE courses. Moving forward Magnolia Middle School will join the rotation of school visits and go through the full process every two years.

Educational programs visit by Mr. Stahl. (4 Contacts)

Respectfully Submitted,

Christopher B. Stahl
