Evaluation Cycle- Spring

School Year- 2023-2024

School Surveyed/Visited- Brandywine Springs School

School District- Red Clay Consolidated

Members of the Delaware Advisory Council on Career and Technical Education are given the responsibility, by State Law, to monitor and evaluate career and technical education programs in Delaware. The purpose of program monitoring is to bring about program improvement for our CTE students. During monitoring visits, a DACCTE staff and Council member are joined by a CTE Education Associate from DOE when possible. The team visits schools to gather information on career and technical education programs so that constructive program improvement recommendations can be formulated and communicated to those who implement the programs.

School monitoring visits typically take place between September and June on a two-year rotation of schools. DACCTE members, as advocates for career and technical education, approach each monitoring visit with an open mind. Our role is to provide an unbiased perspective to help educators. Specifically, Council members use a monitoring questionnaire provided by Council staff as an interview guide when talking with school personnel. After conducting all the interviews, DACCTE Staff analyze all questionnaires and information gathered during the visit. After analysis of all available data, recommendations for program improvement are formulated and communicated to the appropriate agencies, organizations, and individuals. The results of the Brandywine Springs School CTE program visit are as follows:

- 1 Administrator contact

I would like to thank Mr. Bedford (Principal) of Brandywine Springs School for taking the time to discuss career and technical education offerings at the school. We discussed the following information:

- Introduction of DACCTE staff
- Mission of DACCTE
- Program funding informational handout
- DACCTE Contact Information
- Data Collection Instrument (Survey)
- 7th and 8th Grade Business Pathway

Educational programs visit by Mr. Stahl

Respectfully Submitted,

Christopher B. Stahl
