School Surveyed/Visited- Middletown High School

School District- Appoquinimink

Members of the Delaware Advisory Council on Career and Technical Education are given the responsibility, by State Law, to monitor and evaluate career and technical education programs in Delaware. The purpose of program monitoring is to bring about program improvement for our CTE students. During monitoring visits, a DACCTE staff and Council member are joined by a CTE Education Associate from DOE when possible. The team visits schools to gather information on career and technical education programs so that constructive program improvement recommendations can be formulated and communicated to those who implement the programs.

School monitoring visits typically take place between September and June on a two-year rotation of schools. DACCTE members, as advocates for career and technical education, approach each monitoring visit with an open mind. Our role is to provide an unbiased perspective to help educators. Specifically, Council members use a monitoring questionnaire provided by Council staff as an interview guide when talking with school personnel. After conducting all the interviews, DACCTE Staff analyze all questionnaires and information gathered during the visit. After analysis of all available data, recommendations for program improvement are formulated and communicated to the appropriate agencies, organizations, and individuals. The results of the Middletown HS CTE program visit are as follows:

- 9 teachers were interviewed, and 9 surveys were completed. 14 unduplicated contacts.

Conclusions

Teachers are enthusiastic and very supportive of their students and programs. They report that the programs are following Course Pathways/Program of Studies, Career and Technical Student Organizations are available, Advisory Committees are happening and are very strong/relevant to all aspects of their programs, demographics of the classroom represent the demographics of the school, and teachers are reflective of individual program strengths, weaknesses, and needs for improvement. Mr. Jean (Principal) and Mr. Lahutsky (Assistant Principal) are very supportive of all CTE programs. The Work-Based Learning program at Middletown HS is a robust interconnected learning process throughout the entire school and community. The program is over 300 students strong and works very diligently to place every student in an appropriate opportunity to suit the needs of each individual student.

Recommendations

- WBL- Continue to support the full-time coordinator position at the high school. This strong support is paramount to the continued success of the program.
- Funding- All teachers can encumber funds, purchase materials, etc., please ensure all teachers know the appropriate processes in place to utilize funds.

Educational programs visit by Mr. Stahl and Council Member Mr. Reeve.
