Evaluation Cycle- Spring

School Year- 2025-2026

School Surveyed/Visited- Delmar High School

School District- Delmar

Members of the Delaware Advisory Council on Career and Technical Education are given the responsibility, by State Law, to monitor and evaluate career and technical education programs in Delaware. The purpose of program monitoring is to bring about program improvement for our CTE students. During monitoring visits, a DACCTE staff and Council member are joined by a CTE Education Associate from DOE when possible. The team visits schools to gather information on career and technical education programs so that constructive program improvement recommendations can be formulated and communicated to those who implement the programs.

School monitoring visits typically take place between September and June on a two-year rotation of schools. DACCTE members, as advocates for career and technical education, approach each monitoring visit with an open mind. Our role is to provide an unbiased perspective to help educators. Specifically, Council members use a monitoring questionnaire provided by Council staff as an interview guide when talking with school personnel. After conducting all the interviews, DACCTE Staff analyze all questionnaires and information gathered during the visit. After analysis of all available data, recommendations for program improvement are formulated and communicated to the appropriate agencies, organizations, and individuals. The results of the Delmar HS CTE program visit are as follows:

- 8 teachers were interviewed, and 7 surveys were completed. 10 unduplicated contacts.

<b>Survey/Interview Question</b>	<b>Data shows this area is being met</b>	<b>Data shows this area needs more focus</b>	<b>Data is inconclusive</b>	<b>Notes</b>
	✓	✓	✓	
Pathways have sequenced courses	✓			
Pathways are approved through DOE	✓

Programs receive Federal/State funding (Perkins/509)	✓			All programs receive funding.
Budget Availability/Development	✓			Budget process and totals known.
3 Year Budget/Long Term Planning	✓			Plans in place to replace/update equipment.
Demographics of classroom represent demographics of school	✓			

## Conclusions

Teachers are enthusiastic and very supportive of their students and programs. They report that the programs are following Course Pathways/Program of Studies, Career and Technical Student Organizations are available, Advisory Committees are in place and beneficial to programs, demographics of the classroom represent the demographics of the school, and teachers are reflective of individual program strengths, weaknesses, and needs for improvement. Mr. Marine (Principal) is very supportive of all CTE programs. Delmar HS is doing a great job of providing CTE opportunities to students. They have developed a robust WBL program that provides their students with rigor and relevance and offers strong certifications to students, such as medical assisting through their health science program of study and Praxis/ParaPro through the teacher academy program.

## Recommendations

- Work-Based Learning- Please consider a full time WBL Coordinator to further expand on the great program that has been built at the school.
- Funding- Please review Division 2 Energy funding as it applies to CTE Lab spaces such as the Greenhouse.

Educational programs visit by Mr. Stahl and Council Chair Dr. Hutchison.

Respectfully Submitted,

Christopher B. Stahl
